### SNOW WHITE AND SEVEN DWARFS

Once upon a time, in a faraway kingdom, there was a beautiful princess with rosy lips and black hair. Her name was Snow White. She had a cruel stepmother who was a witch. Her stepmother considered herself to be the prettiest. Her magic mirror always told her that when she asked it. One day, when she asked the mirror again, it pronounced Snow White. The stepmother became jealous. She ordered a hunter to take Snow White into the forest to kill her but he set her free. Snow White wandered through the forest alone till she saw a house in which seven dwarfs lived. She told them her sad story and then they let her stay there with them.

One day, the stepmother asked the mirror the question again. She was shock when she knew that Snow White was still alive. She dressed up as an old beggar and went to the dwarfs' house with a basket of apples. She cheated Snow White to eat a poisonous apple. When the dwarfs went home, they found her lying on the floor. They placed her into a glass coffin. A young prince passed through the forest and saw Snow White lying in the glass coffin. He fell in love with her and kissed her. Snow White opened her eyes and an apple chunk flew out of her throat. The prince asked her to marry him and she said yes.
