Japanese people are famous for their well-balanced and healthy diet. That is the main reason for their longevity.

A. Typically, a Japanese meal consists of rice, miso soup, the main dish(es) and pickles. Rice is the staple and plays a central part in people's eating habits. Japanese rice is sticky and nutritious, so when combined with the main dishes and the soup, they make a complete meal. The portions of each dish are individually served.

B. The most important characteristic of their eating habits is they like raw food and do not use sauces with a strong flavour. Two typical examples are sashimi and sushi. The Japanese make sashimi simply by cutting fresh fish. Then they serve it with a dipping sauce made from soy sauce and spicy Japanese horseradish (wasabi). Sushi is similar. The cooked, vinegared rice can be combined with raw fish, prawn, avocado, cucumber or egg. Sushi is usually served with soy sauce and pickled ginger.
